

Summer

made possible
by environmental public
health professionals

The world is complex. We help ensure your surroundings are one less thing to think about. Whether you know us as public health inspectors or environmental health officers, the work we do is proactive, science-based, and behind the scenes, ensuring your environment is safe so that you can enjoy the moments that really matter.

A person is shown from the chest up, submerged in clear blue water. They are giving a thumbs-up gesture with their right hand, which is in the foreground. The person has dark skin and curly hair. They are wearing a light blue t-shirt and an orange and white wristband on their right wrist. Bubbles are visible around them, suggesting they are underwater. The background is a deep blue, slightly out of focus.
