

# Discover a career that's outside the ordinary

You can do more with your science degree than you might think. If you love spending time outdoors, doing different work day-to-day, and connecting with people in your community, environmental public health might be the career for you.

If you want to know more about becoming an EPHP—that's short for **environmental public health professional**—keep reading.

"I became [an EPHP] because I wanted a career that was dynamic, flexible, responsible, and helped people."

– Paul, ON

## EXPLORE EPHP programs nationwide

Our accredited EPHP programs are available coast to coast. Whether you're in B.C., the Maritimes, or anywhere in between, you can find universities and colleges offering a bachelor degree or after degree in environmental public health. Find your perfect fit.

"I love that every day is different. It's not the same repetitive work day, week after week!"

– Hilary M, SK

## UNLOCK financial support for your studies

When it comes to planning for a university or college degree, money matters. It's important to start your journey with the support you need. The following bursaries are available just for environmental public health students:

### Government of Manitoba

Public Health Inspector Student Bursary Program

[LEARN MORE](#)

### Government of Canada

Environmental Public Health Bursary Program for Indigenous Students

[LEARN MORE](#)

You'll also want to visit the websites of the institutions with accredited EPHP programs to see the variety of bursaries and scholarships they offer.

## START your career right after graduation

When you study to become an EPHP, you get both up-to-date, practical knowledge and 3 months of hands-on field experience. After graduation and certification, you're ready to work anywhere in Canada.

Environmental public health is a stable field with high demand for skilled professionals. Visit [Careers](#) for examples of current job postings.

"I chose to become an EPHP because I sought a career that would allow me to make a direct, positive impact within my community."

– Shiraz A, MB
